REPORT OF THE COLLEGE COMMITTEE.

STUDENTS AND FEES.

SESSION 1914–1915.

The total number of Students who registered during the Session 1914–15 was 1416 (including 123 Refugee Students), being a decrease of 790, or, omitting the Refugee Students, of 913, compared with the preceding Session. In the course of the Session 335 (252 Full-time; 83 Part-time) men Students withdrew to join the naval or military forces; 43 Students (21 men; 22 women) withdrew to undertake some other recognised form of national service connected with the War. The Students were distributed as follows:—

(The numbers in brackets indicate the Refugee Students included in the totals.)

	Men.	Women.	Total.
I. Faculty of Arts	188 (44)	158 (7)	346 (51)
Department of Fine Arts	53 (7)	172 (1)	225 (8)

VII. Evening:			
(*a*) Arts	86 (2)	149 (1)	235 (3)
(*b*) Science.....	3	..	3
Grand total....	833 (110)	582 (13)	1416 (123)

There were 545 registered Internal Students of the University, compared with 760 in the previous year. The geographical districts from which the Students came are given in Appendix I. (see p. 41).

The total fees available for the service of the Session 1914–15 amounted to £18,935 14*s.* 9*d.*, a decrease of £9,775 0*s.* 8*d.* on the previous Session.

THE CURRENT SESSION (1915–1916).

The number of Students who have completed their registration and paid fees up to January 31st, 1916, is 973, as compared with 1075 at the corresponding date in 1915. The figure 973 includes 49 Refugee Students who have completed their registration and paid only nominal fees; deducting these, the total is 924, which is a further decrease of 85 in the year 1915, making a total decrease, as compared with the corresponding date in 1914, of 420. As compared with the same time in 1914–15, there has been an increase in the number of Part-time Students, but a decrease of 42 in the number of Full-time Students.

The fees received to January 31st, 1916, amounted to £11,424 8*s.* 7*d.*, showing a decrease of £3,649 18*s.* 1*d.* as compared with the corresponding date in 1915, and a decrease of £10,181 6*s.* 1*d.* as compared with the corresponding date in 1914.

GENERAL FINANCES.

Financial Year 1914–15.

The Accounts for the year (1914–15) are appended to this Report (see Appendix V., pp. 49–61).

College Establishment Income and Expenditure Account.

Income.—The ordinary income was £61,347 6*s.* 7*d.* as compared with £71,567 17*s.* 0*d.*, a decrease of £10,220 10*s.* 5*d.* The income available for the service of the year was increased by £490 8*s.* 6*d.*, an amount from the Fees Suspense Account that ought to have been credited to income in the three previous years.

Expenditure.—The ordinary expenditure was £65,803 13*s.* 1*d.* as compared with £71,260 2*s.* 3*d.* for the previous year, a decrease of £5,456 9*s.* 2*d.* There was a special expenditure of £346 3*s.* 11*d.*, being the actual amount of the loss arising from the defalcation reported in the Accounts of last year.

Economies were effected in every department, and owing to the effective cooperation of all members of the College and the generous subscriptions received, the excess of ordinary expenditure over ordinary income was reduced to £4,456 6*s.* 6*d.* After allowing for the amount from the Fees Suspense Account and the extraordinary expenditure, the excess of expenditure over income was £4,312 1*s.* 11*d.*

The *Grants* from the Treasury, the Board of Education, the London County Council, and other bodies, are set out in the

Accounts. The list of them (see Appendix II., pp. 42-44) shows how greatly the cost of the educational work done by the College exceeds the amount of fees paid by students.

Subscriptions and Donations (see Appendix II., pp. 42–44) amounted to £2,463 5*s.* 9*d.*, of which £181 0*s.* 6*d.* was for general purposes.

The General Balance Sheet.

This gives the general position at the end of the year 1914–15. A comparison with the Balance Sheet for 1913–14 shows that the adjustments between the General College Account and the Equipment and Endowment Account have been made.

The advance from General College Funds of £6,075 for the purchase of All Saints' Church caused the temporary loan from the Bankers in the latter part of the year to be high, and, in consequence, the amount of the interest paid for that loan was also high. The money thus expended is at present unproductive, as the funds have not been forthcoming to alter and adapt the Church for College purposes.

The Current Financial Year (War Estimates).

1915–16.

The financial position has been to some extent relieved by a Treasury Grant of £10,500 for the two Sessions 1914–15 and 1915–16. This grant will be utilised to meet the deficit of £4,312 1*s.* 11*d.* for the year 1914–15, leaving a balance of £6,187 18*s.* 1*d.* towards the deficit for the current year. This amount will not, however, be sufficient to meet the estimated deficit. Owing to the serious further fall in fee revenue for the current Session (a larger fall than was anticipated when the Estimates were drawn up), the deficit, notwithstanding the far-reaching economies that have been made, can hardly be less than £9,500. This makes it necessary, if debt is to be avoided, to raise a further sum of about £3,500 for general purposes. The friends of the College are asked to provide this sum in the form of additional donations for the present year.

They are also invited to give such help as they can to enable the most urgent works in progress to be completed. The Equipment and Endowment Fund Committee are carrying on their work as far as circumstances permit. They recognise that their activities must be hampered owing to the War; at the same time, there are certain

works, the completion of which is very urgent and cannot be long delayed without seriously interfering with the work of the College. The following are among the most pressing, and the Equipment and Endowment Fund Committee hope that the funds needed for carrying them out may be speedily forthcoming:—

	£	s.	d.	£	s.	d.
(*a*) Chemical Laboratories:						
(i.) Balance required for ordinary equipment	3,000	0	0			
(ii.) For equipment of Physical and Electrical Chemistry Laboratory	10,000	0	0

THE COLLEGE COMMITTEE.

The only change which the membership of the College Committee has undergone during the past year was caused by the resignation by Sir Henry A. Miers of his post as Principal of the University, on his appointment to the Vice-Chancellorship of the University of Manchester, and his consequent resignation of his membership of the University College Committee. The Senate, on the recommendation of the College Committee, have appointed the Right Hon. Lord Glenconner to the seat on the College Committee thus vacated.

The Treasurer, Mr. F. V. Schuster, has been absent during the greater part of the year on Military Service. During his absence, since June 1915, Mr. H. Keene has undertaken the duties of Acting Treasurer and Chairman of the Budget Sub-Committee.

Mr. Walter Baily and Dr. G. Carey Foster have intimated to the College Committee that they felt obliged, on account of increasing years, to retire from membership of the Committee, and that accordingly they did not wish to be re-nominated for 1916–17. They have served the College for many years and in a great variety of ways. The College Committee received their intimation with great regret, and requested the Vice-Chairman to convey to them the thanks of the College Committee for their long and valued services and the regret felt by the Committee at their resignation.

Sir Ralph Forster, Bart., has been appointed to fill one of the vacancies thus created.

Mr. W. E. Mullins, M.A., who, since 1912 has been a member of the College Committee on the nomination of the London County Council, has also intimated that, owing to increasing years and ill-health, he feels unable to offer himself for re-nomination. This intimation was received with great regret by the College Committee.

REPRESENTATIVES.

The Senate have appointed the following Representatives of the University in respect of University College :—

Mr. Robert H. Benson on the British Institution Scholarship Fund.

The Provost on the Central Council of the Federated Superannuation System for Universities in respect of 1915, and Dr. Walter W. Seton on the same in respect of 1916.

Mr. Harold Merriman Cooper on the Governing Body of Hampton Grammar School.

Dr. C. F. Hardie on the Governing Body of the Queen Elizabeth School of Barnet.

The Senate have again co-opted the Provost as one of the representatives of University College.

The Provost, Professor Pollard, and Professor Cushny (the latter in respect of the Faculty of Medical Sciences) represent the College Committee on the London Intercollegiate Scholarships Board.

The Provost, Dr. F. W. Goodbody, and Mr. Raymond Johnson represent the College Committee on the Committee of Management of University College Hall.

PERSONS CONNECTED WITH THE COLLEGE DECEASED

(other than those who have fallen in the War).

The College Committee record with regret the death of the following persons connected with the College :—

The Right Hon. Sir Henry E. Roscoe, F.R.S. (Former Student; former member of the Teaching Staff; Life-Governor; Chairman of the Chemistry Appeal Committee).

Sir Arthur W. Rücker, F.R.S. (Life-Governor; former Principal of the University).

Sir William R. Gowers, F.R.S. (Fellow; Professor of Clinical Medicine 1887–1889).

Dr. H. Charlton Bastian, F.R.S. (Fellow; Professor of Pathological Anatomy 1867–68 to 1886–87; Professor of Clinical Medicine 1877–78 to 1897–98; Professor of Medicine 1887–88 to 1894–95; Emeritus Professor of Medicine and Clinical Medicine).

Emeritus Professor E. S. Beesly, M.A. (Professor of History 1860–1893).

Professor E. A. Minchin, M.A. (Life-Governor; Professor of Zoology 1899–1906).

Mr. Arthur Higgs (Fellow) (see also p. 29).

Mr. James Eccles (Life-Governor) (see also p. 29).

The Rt. Hon. Lord Burnham (Former Student).

Mr. Stanley Boyd of Charing Cross Hospital Medical School (Former Student).

COLLEGE ROLL OF HONOUR.

The College Committee desire to express their respectful sympathy with the families of those members of the College who have fallen in the War. The list up to the present date includes Fifty-two names. A full record will be contained in "PRO PATRIA," the third issue of which is in course of preparation.

A Memorial Service for all those connected with the University who have fallen in the War was held at the Temple Church on November 1st. It was attended by the Chancellor, by the principal Members of the University, and by the relatives and friends of the men who had fallen. The Service was conducted by the Dean of King's College (the Rev. Dr. Caldecott) assisted by the Rev. J. A. Douglas, a Member of the Senate; the Lesson was read by the Master of the Temple; and a short address was given by the Right Rev. the Bishop of Kingston-on-Thames, a Former Student of the College.

THE COLLEGE BUILDINGS.

The New Chemical Laboratories.

The New Chemical Laboratories were sufficiently advanced to enable the department to move into them during the Long Vacation. The Technical Laboratory, to the completion of which great importance is attached by the Chemical Staff, cannot either be finished or equipped until the money, estimated at £10,000, is available for this purpose. It has been temporarily used in its unfinished condition for special investigations carried on at the request of the War Office. The portions of the Laboratories now finished have made it possible to carry on the ordinary work of the department under much better conditions, and have also made it possible to extend the special War work begun last Session. In order to complete the equipment of the Laboratories, other than the Technical Laboratory, a sum of £3,000 is still needed (see p. 16).

The Sculpture Studios.

The reconstruction of the old Main Chemical Laboratory for use as a Sculpture Studio has not been proceeded with, owing to the War. Plans are in preparation so that, as soon as the time appears favourable, this work can be completed in accordance with the undertaking of the anonymous donor.

The New Building for the Department of Applied Statistics and Eugenics.

The new building for the Department of Applied Statistics and Eugenics, provided by the anonymous donor, was approaching completion and the plans for the fittings were almost ready, when, at the request of the War Office, it was decided to postpone the completion of the equipment of the building and to hand it over for use as a temporary Hospital for Wounded Soldiers under the management of University College Hospital. The building has been adapted for this purpose and provides accommodation for about 120 Soldiers.

This use of the new buildings seemed, under the stress of national circumstances, the right one. The development of the work of the Department of Applied Statistics and Eugenics has inevitably been hindered ; and the re-arrangement of the Libraries and the extension of the History Department, that had been planned, have consequently been postponed.

The Great Hall.

It has not been possible to proceed with the adaptation of the building formerly known as All Saints' Church, owing to the lack of funds for the purpose. Plans for its reconstruction have been prepared, and the works can be proceeded with as soon as the money is forthcoming. Owing to the lack of a Great Hall, it has not been possible to meet all the applications that have been made for tickets for the several Public Lectures delivered at the College, nearly 1,000 applications for such tickets having had to be refused.

BENEFACTIONS AND DONATIONS.

The College Committee have to record the following Benefactions, for which they make grateful acknowledgment:—

The Worshipful Company of Carpenters have made a grant of £150 for the Session 1915–16, to be devoted to the work of the Evening Classes in the School of Architecture.

The Crabb Robinson Trustees have continued to support the social and athletic life of the Students by making grants amounting to £185, of which £175 was granted for the two Athletic Grounds.

Mr. James Eccles, a former Life Governor, has made a bequest of £2,000, subject to the life interest of the testator's wife and sister, to the College, with the wish "that the said sum should be retained by the said College and invested as permanent capital and the income thereof applied for the general purposes of the said College."

Mr. Arthur Higgs, Fellow, has bequeathed "£300 to the Authorities of University College, Gower Street, to be applied by them in their absolute discretion for the benefit of the said College." The money has now been received, and it has been resolved that it shall be applied towards reducing the debt on the Institute of Pharmacology.

The Rosa Morison Memorial Committee, acting on behalf of the Subscribers, presented to the College in May last a Medallion of the late Miss Rosa Morison executed in marble by Professor Havard Thomas, together with the die for the Rosa Morison Medal and a sum of £15 15*s.* 10*d.*, the income of which is to be used to provide annually a Bronze Medal. Lady Lockyer made the presentation on behalf of the Committee, and Lord Reay accepted it in the name of the College. The Medallion has been placed in the lobby to the General Library.

The Robert Ross Testimonial Committee have raised a sum of £708 which, in accordance with Mr. Ross's expressed wish, is to be devoted to the foundation of a Scholarship in the Slade School to be known as "The Robert Ross Scholarship."

Dr. Rudolph Messel has made a gift of £500 for the installation and equipment of the Joint Workshop for the Departments of Chemistry and Physics.

The Member of the College who for the past three years has provided funds for the foundation of an Entrance Scholarship of £30 per annum for a student reading for Classical Honours, has renewed that provision for a further term of three years.

Mr. Herbert Cook has, through Dr. Borenius, made gifts amounting to £40 for the purpose of providing lantern-slides to illustrate Dr. Borenius's lectures on the History of Art during the Sessions 1915–16 and 1916–17.

Mr. Carveth Read has made further gifts of £10 for the Psychological Laboratory and £5 for the Libraries.

The Institution of Mechanical Engineers has granted to Mr. A. H. Barker, the Lecturer in Heating and Ventilating Engineering, a sum of £15 for the purposes of one of his researches.

The Royal Colonial Institute has made a grant of £10 in aid of the expenses incurred by the College in respect of Imperial Studies Lectures during the First Term of the present Session.

The arrangements for the packing and reception of the Geodynamical Collection bequeathed by the late Dr. Johnston-Lavis, to which reference was made in the last Report, have been suspended for the duration of the War. A Body of Trustees for the administration of the Collection is to be appointed, in accordance with Dr. Johnston-Lavis's will.

The Master of Pembroke College, Oxford, has made a gift to the Geological Department of three large Cabinets containing a valuable and extensive Collection of characteristic British Fossils.

Miss Birkbeck has presented an engraving of her grandfather, Dr. George Birkbeck, one of the Founders of the College and a member of the first Council. He is commemorated in the Birkbeck Laboratory at the College and the Birkbeck Institute (now Birkbeck College).

THE ACADEMIC STAFF.

Appointments and Changes.

FACULTY OF ARTS.

1. Mr. J. Maynard Keynes, M.A., has been appointed Newmarch Lecturer for the current Session.

2. Mr. H. G. Spearing, M.A., has been appointed Lecturer in Primitive Art in the Department of Archæology for three years.

3. Mr. M. Ginsberg, M.A., has been appointed Assistant in Philosophy for the current Session.

4. Mr. G. E. Phillips has been appointed Honorary Demonstrator in Philosophy and Psychology, and Miss Marjorie Axford Honorary Demonstrator in Geography, both for the Session 1915–16.

5. Miss E. Jeffries Davis has been appointed a member of the College Faculty of Arts.

FACULTY OF LAWS.

Professor R. W. Lee has resigned the Chair of Roman-Dutch Law on his appointment as Dean of the Faculty of Law at Montreal; Professor Murison is undertaking the teaching of Roman-Dutch Law for the current Session.

FACULTY OF SCIENCE.

1. Professor W. H. Bragg, Professor of Physics in the University of Leeds, has been appointed to the Quain Chair of Physics in succession to Professor F. T. Trouton.

2. Dr. W. B. Tuck has been appointed Chemical Laboratories Administrator.

3. The title of Assistant Professor of Pure Mathematics has been conferred upon Mr. G. N. Watson.

4. Dr. David Heron resigned at Christmas his appointment as Assistant Director of the Galton Laboratory in the Department of Applied Statistics and Eugenics on being appointed Chief Statistician to the London Guarantee & Accident Company. Miss Amy Barrington, Librarian in the same Department, resigned her appointment in October; and Mr. H. E. Soper, Assistant, resigned in order to take up War Service. Mr. A. W. Young and Mr. Israel Horwitz have been appointed Assistants for the current Session; Mr. Horwitz has,

however, applied for permission to resign his appointment in order to take up work at the Ministry of Munitions.

5. Miss Ruth F. Skelton and Mr. F. L. Hopwood have been appointed Assistants in the Departments of Physiology and Physics respectively.

6. The following have been appointed Demonstrators in the Department of Chemistry:—Miss B. Runge; Mr. J. L. Lizius.

7. Professor W. H. Bragg and Mr. D. Orson Wood have been appointed Members of the College Faculty of Science.

Faculty of Engineering.

1. Mr. P. R. Coursey has resigned his appointment as Assistant in the Department of Electrical Engineering, in order to accept a post under the Admiralty.

2. Professor W. H. Bragg has been appointed a member of the College Faculty of Engineering.

Faculty of Medical Sciences.

1. Mr. F. T. Marchant has been appointed Assistant Demonstrator in Hygiene and Public Health.

2. Dr. A. W. Porter has been appointed a member of the College Faculty of Medical Sciences.

Temporary War Arrangements.

Owing to the absence of members of the Academic Staff, and owing to the reduced number of students, re-arrangements of the work of almost every department have been made necessary. The College Committee desire to acknowledge the public-spirited way in which members of the Academic Staff and Students have co-operated in overcoming difficulties. Intercollegiate arrangements with King's College and Bedford College have been extended; in some departments, teachers from one College are assisting in the teaching at another College. In these ways, it has been possible to reduce expenditure considerably.

It has been found necessary to make a certain number of temporary appointments to replace members of the Staff absent on War Service. These appointments are as follows:—

In the Department of French: Dr. O. H. Prior of Rugby, Miss L. W. Stone, and Miss H. Le Roy.

In the Department of English: Miss E. Chick.

In the Department of Chemistry: Dr. F. Schwers of Liége.

In the Department of Civil and Mechanical Engineering: Mr. H. Busbridge.

In the Department of Archæology, Professor Percy Gardner of Oxford is kindly assisting during the absence of his brother, Professor Ernest Gardner, at Salonica.

Professor Van der Stricht, of the University of Ghent, has been appointed an Honorary Member of the Staff of Zoology.

During the absence of Lt.-Col. H. J. Harris, Mr. L. Solomon has volunteered to perform the duties of Censor of Higher Civil Service Studies and Dr. C. H. O'Donoghue has been appointed Acting Sub-Dean of the Faculty of Science.

ADMINISTRATION.

The depletion of the Administrative Staff owing to the demands of military service has involved many difficulties. These have been to a large extent overcome by the willingness of the members of the Staff remaining at home to undertake additional work

Miss E. Jeffries Davis, of the Department of History, volunteered to do a large portion of the work of the Publications Secretary.

The Tutor to Women Students, as well as Mrs. Pollard, and a large number of women students rendered effective clerical help during the Long Vacation.

The title of Registrar has been granted to Miss F. E. Craggs.

Miss B. G. Greig has been appointed Private Secretary to the Provost.

Miss L. M. Alder has been appointed Acting Accounts Assistant.

THE WORK OF THE FACULTIES.

The chief events of the Session 1914–15 are dealt with in the Report that was presented by the Provost at the Assembly of Faculties last July; this, together with the Address by Sir Henry Miers, who received the Scholars, Medallists, and Prizemen on that occasion, is printed in the Calendar for the current Session.

The work of the College has been profoundly affected by the circumstances arising out of the War. The energy that is usually devoted to research work has been to a large extent utilised in directions likely to serve the needs of the country at the present time. The lists of Original Papers and other Publications during the year, which will be found in the Calendar, indicate that the activities of the various departments have been well maintained and have tended to serve the special purposes of the War.

The delivery of Public Lectures has been continued and developed, more particularly in connexion with matters relating to the War. In the course of the Session 1914–15 the various Public Lectures were attended by upwards of 5000 persons; nearly a thousand applications had to be refused owing to the want of a larger hall for this purpose. The following is a list of the Public Lectures that have been arranged since the issue of the last Report:—

By members of the College Staff:

Professor S. D. Adshead, "War Memorials" (Six Lectures).
Professor L. D. Barnett, "Hindu Religions" (Three Lectures).
Professor W. M. Bayliss, "The Physiological Action of Light."
Professor J. A. Fleming, "Science, in the War and after the War."
Professor G. Dawes Hicks, "The Limits of Philosophical Inquiry."
Professor L. W. Lyde, "Racial Frontiers in Central and South-Eastern Europe"; "The Historical Geography of France, Britain and Germany" (Three Lectures).
Professor Sir John Macdonell, "Comparative Law: the Chief Legal Codes" (Three Lectures); "Symbolism in Law"; "Comparative Law" (Three Lectures); "The Law of Procedure" (Three Lectures).

Professor J. H. Morgan, "Five Months with the British Expeditionary Force" (Three Lectures); "The War and the Political Unity of the Empire" (Nine Rhodes Lectures).
Professor A. F. Murison, "Early Roman Law and Procedure."
Professor J. W. Neill, "The Great Mogul Emperors" (Four Lectures).
Professor W. M. Flinders Petrie, "Prehistoric Egypt."
Professor A. F. Pollard, "The War Week by Week" (Five Lectures); "The War and the British Realms"; "The Progress of the War" (Ten Lectures); "German History and the German War" (Ten Lectures).
Professor J. G. Robertson, "Literary Æsthetics in the Seventeenth Century."
Professor F. M. Simpson, "St. Sophia, Constantinople, and the Mosques of Constantinople and Brusa."
Mr. A. H. Barker, "The Heating of the House of Commons."
Dr. Mabel Bode, "The Pali Language as a Literary Instrument."
Dr. A. Cippico, "Italy and the Adriatic."
Dr. E. G. Gardner, "The Lyrical Poetry of Dante" (Twelve Barlow Lectures).
Mr. Daniel Jones, "The Uses of Phonetics"; "The Pronunciation of Cantonese" (Three Lectures); "The Pronunciation of Urdu" (Three Lectures).
Mr. Stephen Jones, "The Pronunciation of Welsh" (Two Lectures).
Mr. J. M. Keynes, "The War Finance of the Continental Powers" (Six Newmarch Lectures).
Miss Margaret A. Murray, "Egyptian Art."
Mr. Harold E. Palmer, "Methods of Language Teaching" (Three Lectures).
Dr. T. G. Pinches, "Assyro-Babylonian Legends and History."
Mr. Carveth Read, "Final Causes in Animal Psychology."
Dr. Marie C. Stopes, "Coal" (Ten Lectures).

By Visitors:

The Principal of King's College, London (Dr. R. M. Burrows), "The Most Recent Discoveries in Crete."
Dr. Bernard Bosanquet, "Ethics and Æsthetics" (Three Lectures).
Miss Annie Cristitch, "Serbian Ideals."
Professor Percy Gardner, "The Relations between Greek Art and Greek Literature"; "Portraits of Greek Men of Letters."
Mr. Thomas Okey, "Some Anglo-Italian Problems, Psychological and other."
Sir Edwin Pears, "The Early History of the Turks"; "What Constantinople has done for the World."
Dr. R. W. Seton-Watson, "Austria-Hungary: Racial Problems"; "The Southern Slav Question"; "Serbia's Place in the War"; "Bohemia." (These four Lectures were arranged in co-operation with theCouncil for the Study of International Relations.)
Colonel W. Shirley, of the Artists' Rifles, "A Survey of Present Military Operations."

Almost all the scientific and technical departments have been engaged in special work in connection with the War, either directly for the Government, or indirectly through one or other of the Scientific Committees appointed for the purpose. It is not permissible at this stage to give any detailed particulars of the work done. The departments that, from the nature of their work, have been particularly active are the following: all the departments of the Faculty of Engineering, the Departments of Physics, Chemistry, Physiology and Pharmacology, and the Department of Applied Statistics and Eugenics.

The following brief summary of matters not mentioned in the Report presented at the Assembly of Faculties is given here to make the record of the year as nearly as possible complete:—

FACULTY OF ARTS.

School of Architecture.

The Architectural Education Committee report that the work of the School of Architecture has been seriously affected by the War. Immediately on the outbreak of war, seven students (six advanced students and one second-year student) who would have continued their studies during the Session 1914–15 withdrew to take up War Service. Including four Refugee Students, twenty-one new students were enrolled in the Session 1914–15; of these, six obtained Commissions in the course of the Session. The work done by the Junior Students was distinctly above the average, but the advanced work, although good in quality, was limited in amount owing to there being so few Senior Students. The Donaldson Medal was not awarded. The Evening Classes in 1914–15 opened with an entry of twenty, but the attendances decreased towards the end of the Session owing to the demands of military training. The Town Planning Classes, day and evening, made a good start, considering the adverse conditions, with eight students. Some very interesting work was done, the designs submitted for the Lever Prizes being of high quality both in Architecture and in Town Planning. Regulations for (i) the Certificate in Town Planning, (ii) the Diploma in Town Planning and Civic Architecture, and (iii) the Diploma in Town Planning and Civic Engineering have been approved, so that the organisation of this new sub-department has made considerable progress and will be ready for active work as soon as the need for it arises.

A course of five lectures on "Belgian Art" was given by M. Camille Poupeye; and, with the approval of the Carpenters' Company, six Public Lectures supported by their Court were arranged on "The Architecture of Belgian Towns," and were delivered by MM. Caluwaers, Horta, and Portielje (Belgian Architects), Mr. P. Abercrombie, M.A., and Mr. Arthur Stratton, F.R.I.B.A. Professor Simpson lectured in October on "Rheims, and other French Cathedrals in the Fighting Line." A Belgian Town Planning Exhibition was held in the Easter Vacation and attracted considerable notice. Lectures on the exhibits were delivered from time to time.

The total number of Day Students in the School of Architecture

during the current Session is twenty, including three Refugee Students. The total number of Evening Students in the School of Architecture is six, including one Refugee Student; and of Evening Students in the Department of Town Planning, three.

Egyptology.

The work of the British School of Archæology in Egypt has been inevitably suspended. Professor Flinders Petrie and his staff are devoting their time to the Catalogue of the Egyptian Collection and the collateral "History of Tools and Weapons," which will soon be published.

Phonetics.

At the request of the Board of Education, a special Course of Phonetics for Teachers in Training Colleges was given during the Long Vacation. Mr. H. E. Palmer has, by special invitation, been assisting in the work of the Department this Session. His course of Public Lectures on "Methods of Language Teaching" attracted a large audience.

FACULTY OF SCIENCE.

The institution of a lectureship in Palæobotany has been well justified. The work carried out under Dr. Marie Stopes has proved of great value. The third of a series of lectures on "Coal" has been delivered this term, and has attracted leading representatives of the coal industry as well as of the Institution of Mining Engineers. The lectureship was instituted for a period of three years with funds provided through the instrumentality of Mr. Aylmer Maude. Its continuation must depend upon the provision of special funds for the purpose, as, in view of the circumstances of the War, no funds can be spared from general purposes.

FACULTY OF ENGINEERING.

The Council of the Royal Sanitary Institute decided to accept the College Engineering Diploma as a qualification for Membership of the Institute.

With a view to the promotion of Post-Graduate and Research Work in the Faculty, it has been decided to institute a special Certificate for a full course of Post-Graduate Study extending over at least one Session; each course will be considered on its merits.

Professor Fleming gave a Course of Advanced Lectures last term on "Electric Heating and Furnaces"; it was attended by twenty-three students. In November, Professor Fleming and Mr. Coursey published the results of researches on the Effect of Electrical Oscillations on the Magnetism of Iron, conducted by a new instrument called a Campograph. Professor Fleming had the satisfaction also of seeing his invention of a Vacuum Valve utilised in connection with the Wireless Telephone experiments across the Atlantic. It will be remembered that the Navy Department of the United States successfully talked to the Eiffel Tower on the Wireless Telephone in October last.

The Professor of Civil and Mechanical Engineering, in reporting upon the War activities of his department, to which it has only been

possible to allude briefly owing to the nature of the work, calls attention to the urgent need for extending the department, and suggests that a first step could be taken towards the completion of the Engineering Wing by the construction of a mezzanine floor in the present laboratory. He estimates that this could be done at a cost of £300; it would provide ample accommodation for the work in Machine Tools, leaving the main laboratory free for experimental work.

WAR ARRANGEMENTS.

The first issue of "Pro Patria," as recorded in last year's Report, included 665 names; the second issue, that appeared in July last, included 897 names; the third issue is in course of preparation and will be published shortly. Past and present members of the College, whose names are not in "Pro Patria," but who are taking an active part in one or other of the Services, are invited to send full particulars to the Publications Secretary.

Use of College Land and Buildings.

The use of Drilling-ground, Gymnasium, and Lecture-halls has been granted to the following:—(*a*) 1st London Brigade R.F.A. (Territorial); (*b*) 12th Reserve Battalion London Regiment; (*c*) Artists' Rifles; (*d*) St. Christopher's Club Cadet Corps.

As previously stated (p. 18), the use of the new Eugenics Building has been granted for hospital purposes. Accommodation has also been provided in the Chemical and Engineering Laboratories for Officers to conduct special experiments therein.

The Union Society's Athletic Ground at Perivale has been placed at the disposal of the Officers Training Corps for the purposes of a Training Camp.

The College Committee have placed rooms at the disposal of the Police for use as a Clearing Station in the event of such need arising owing to Air Raids. In this connection, they desire to express their appreciation of the services of members of the Academic and Administrative Staffs, Students, and College Servants in forming themselves into Night Patrols for the protection of the college buildings in the event of Air Raids. The details have been effectively organised, in the first instance by Mr. Offor of the Library, and at the present time by Dr. Perrett of the Department of German.

The Reception of Refugee Students from Belgian and French Universities.

During the Session 1914–15, 123 Refugee Students, mainly from Belgian Universities, were admitted. Members of the College and their friends made generous gifts of clothing and money, the latter amounting to £609 9*s.* 4*d.*, to add to the comfort of these students during their time of exile. The Union Societies admitted them to the privileges of membership without subscription. Many of them have already returned to their own countries and joined the ranks of their armies, others are preparing to do so. The number admitted in the Session 1915–16 is 49.

Professor Louis Gesché of the University of Ghent, to whom reference was made in the last Report, has taken up professorial work during the War at the University of Montpelier.

War Studentships.

In view of the representations received from the Professional Classes War Relief Council, the College Committee decided to place a limited number of Free Studentships at the disposal of that Council. Two students have been nominated under this scheme.

Prisoners of War Help Committee.

A joint Committee of members of the Academic Staff and Students has been formed to aid the Prisoners of War Help Committee. The Committee has been well started and is in a position to send parcels of food regularly to some 33 prisoners.

Social Work.

Members of the College have aided in social work in connection with the War in a variety of ways. An endeavour has been made to make the lot of the convalescent soldiers in the Hospital and in the Auxiliary Hospital as happy as possible. Newspapers, magazines, games, concerts and entertainments have been provided through the instrumentality of a joint Committee of the Academic Staff and the Unions.

The activities of the St. Christopher's Working Boys' Club have been greatly extended.

Many of the women students are giving their time to Orderly duties in hospitals; others to Belgian relief work.

The Voluntary Aid Detachment has supplied visitors to the hospitals under Lord Robert Cecil's scheme for tracing the missing, and, in conjunction with the Police, keep vigil against Air Raids; it is also providing and equipping a rest hut for Y.M.C.A. work.

The Officers Training Corps.

The organisation and arrangements of the Officers Training Corps have been modified from time to time to meet the changing circumstances in accordance with the instructions of the War Office. Dr. C. H. O'Donoghue was gazetted Lieutenant and has, to a large extent, taken up the work of Lt.-Col. H. J. Harris in connection with the Artillery Section. This Section is now restricted to men who devote their whole time to military service. It is doing important work under Major Grandage, and is turning out a regular supply of well-trained Artillery Officers. The Infantry Section is being continued for men under military age under Lieut. Wilkinson.

THE LIBRARIES.

The accessions to the Libraries during the year amount to 2,403 volumes and pamphlets. Of this number 1,454 have been presented. These totals include 84 additions to the Mocatta Library: 46 by purchase and 38 by presentation.

Special thanks are due to the following donors:—

(1) To Sir John Rotton, for a set of Muratori's 'Rerum Italicarum Scriptores' in thirty-five volumes and forty-five parts, and for a set of Volumes 1–75 of the 'Journal of the Royal Agricultural Society of England.' Sir John Rotton has undertaken to meet the cost of binding both these sets.

(2) To Mr. Alfred Beesly, for eighty volumes and seven parts of 'La revue positiviste' and 'La revue occidentale' from the library of his father, the late Professor E. S. Beesly.

(3) To the Secretary of State for India in Council, for the 'Report on the enquiry into the rise of prices in India,' in five volumes.

(4) To Mr. E. H. Rhodes, for eight volumes of the 'Reports of the Deputy Keeper of the Public Records.'

(5) To Miss Procter, for twenty-four volumes of the 'Art Journal.'

(6) To Professor H. E. Butler, for thirty-four volumes of classical and English literature.

The depletion of the permanent library staff owing to the War has been to an extent made good by voluntary assistants. The Ricardo and German Libraries have been entirely re-arranged, and considerable progress has been made with re-press-marking them. The greater part of this work has been done by Mrs. Pollard. Professors Priebsch and Robertson have given valuable assistance.

The purchase of a new case for the Librarian's Room has made it possible to collect and press-mark all the books and pamphlets in the Library dealing with the history of the College, a collection which it is desirable to make as complete as possible.

The furnishing of the Oriental Library with new book-cases has now been completed.

The Departmental Library of Architecture has been strengthened by the purchase of a collection of books on Town Planning.

The Library of the Bibliographical Society, which is housed in the College, has been catalogued and press-marked at the expense of that Society.

A proposal to obtain much needed additional accommodation for store-books on the East side of the Science Library was withdrawn, owing to the difficulty of obtaining steel shelving at the present time.

Fresh accommodation for the Departmental Library of History is much required in order that research work may be more satisfactorily dealt with.

The Library Grants have been necessarily greatly reduced, whilst there has been a considerable rise in the price of foreign books and periodicals, and in the cost of binding, and of library fittings and stationery.

Certain additions have been made to the rules governing the borrowing of books from departmental libraries.

During the Session 1914–15, 132 Students held keys of the Science Library, and 234 of the different Arts Libraries. The number of books issued for home reading was 4,406, and the number of books issued for reading in the Libraries is roughly estimated at 85,000.

Dr. Chambers had six months' leave of absence in order to enable him to undertake Red Cross work in France. During his absence Mr. Offer was in charge of the Libraries.

EVENING AND VACATION LECTURES AND MEETINGS.

The College has been open during the past year on five evenings in the week for the purpose of special work, mainly of a post-graduate character.

The meetings of the Philological Society, the Geologists' Association, the Jewish Historical Society, the Law Students' Society, and the Folk-Lore Society, are held regularly in the College.

The Classical Association, the Modern Language Association, the London Nature Study Circle, and other learned Societies, have also met at the College; in January the Annual Conferences of the Historical Association, of the Geographical Association, and of the Tutors of Tutorial Classes were held at the College.

The University Holiday Course for Foreigners, which is generally held at the College during the Long Vacation, was suspended in 1915 on account of the War.

STUDENTS' SOCIETIES.

The War has caused the work of the Union Society during the year to be carried on under exceptionally difficult circumstances.

The athletic activities of the Union have been almost entirely suspended from the outbreak of the War. The Union Committee placed the Athletic Ground at Perivale at the disposal of the War Office, in order that it might be used as a Training Camp for the University of London Officers Training Corps. Mr. N. T. Wright, who was President-Elect of the Union Society for the Session 1914–15, was unable to take up his presidential duties as he received a commission at the outbreak of the War; he was killed in action on October 1st, 1915. His death is very greatly deplored by the members of the Union Society, to the interests of which he had devoted himself so enthusiastically.

Notwithstanding the exceptional circumstances caused by the War, the celebrations of Foundation Week were maintained, but on a restricted scale. The Athletic Sports were omitted altogether. The Foundation Oration was delivered by the Rt. Hon. Lord Parmoor on March 18th, 1915, on "'Do well and right, and let the world sink'—George Herbert." The Annual Dinner was held in the Refectory on March 19th, and proved most successful. About 100 members were present, the majority of whom were in khaki.

Last Session the Membership of the Union was 930.

The Women's Union Society has had a successful year. A considerable number of its members have been occupied throughout the year with War work of various kinds; some are engaged in nursing in France, others in England.

The Voluntary Aid Detachment, formed in connection with the Women's Union Society, has been active throughout the year, and

has provided for its members systematic training in Home Nursing, in First Aid, and in Hygiene and Sanitation. Drills have taken place throughout the year, many of them given by an Instructor from the College of Ambulance. The Athletic Clubs of the Women's Union have maintained their activities throughout the year. The membership of the Women's Union last year was 374.

The Union Magazine, notwithstanding changes in editorship and management, has had three successful issues.

A Dramatic Society has been formed in connection with the Union Society and the Women's Union Society, but its activities have been much limited by the absence of students on War Service. The Society, however, organised before Christmas a successful dramatic performance, the proceeds being devoted to the College Prisoners of War Fund.

The Old Students' Association has found it necessary to curtail its programme during the year as so large a proportion of its members are occupied on War Work and are unable to attend meetings and functions. For this reason it was decided not to hold the Annual Dinner; instead, an afternoon meeting was held at the College in December.

The Guild of Graduates held its Annual Dinner on Presentation Day, in the College Refectory, when the new graduates were entertained by the Guild and the Deans of the College Faculties.

THE PEEL FUND.

The income of the Peel Fund was expended in grants for the purchase of books made to the following Institutions:—

The Guildford Institute (£5). The Yorkshire Union of Institute and Village Library (£5). The Village Institute, Lake Vyrnwy, Oswestry (£3 15*s.*). The St. Columb Institute, Cornwall (£5). The St. Christopher's Working Boys' Club (£5).

FELLOWS.

The following have been elected to the Fellowship of the College:—

Mr. William Edward Collinson, M.A., Ph.D., Professor of German Language and Literature in the University of Liverpool.

Mr. George Barker Jeffery, M.A., B.Sc., Assistant in, and Acting Head of, the Department of Applied Mathematics at the College.
